SKILLS

- Frontend: React.js, Next.js, JavaScript (ES6+)
- Styling: Tailwind CSS, CSS3, Styled Components
- State Management: React Query, Redux Toolkit, Context API
- Backend Integration: Supabase
- Version Control: Git, GitHub
- Other Tools: Vercel, basics, Figma (UI to Code)

LANGUAGES

- English (Normal)
- Urdu
- Punjabi

REFERENCE

PROFILE

I'm Sahil Raza, a passionate Web Developer specializing in **React.js** and **Next.js**. I build modern, responsive, and high-performance web applications with clean architecture and great user experience. My focus is on crafting efficient UI components, optimizing performance, and writing maintainable code using JavaScript (ES6+), modern React patterns.

WORK EXPERIENCE

Hands on practice 2024 - PRESENT

Frontend Developer (Self-Learning & Project-Based Practice)
Jan 2024 - Present | Remote
Over the past 1.5 years, I've been deeply focused on mastering JavaScript, React.js, and Next.js through real-world projects and continuous learning. I've followed professional development courses by Jonas Schmedtmann, where I built multiple hands-on projects that strengthened my understanding of modern JavaScript, React fundamentals, and advanced concepts like component architecture, state management, and server-side rendering with Next.js.

During this time, I have:

- Developed and deployed several React & Next.js applications from scratch, including a Skill Exchange Platform, To-Do List App, Habit Tracker, and Recipe Application.
- Practiced building reusable UI components, optimized performance, and managed state efficiently using React Query and Redux Toolkit.
- Gained strong experience integrating APIs, Supabase, and Firebase for real-time data handling and authentication.
- Focused on responsive design and user experience, using Tailwind CSS and modern design principles.
- Continuously improved my development workflow with Git, Vercel, and modern coding best practices.

My consistent dedication to learning and building projects has helped me transition from fundamentals to building production-level applications, ready to contribute effectively as a React / Next.js developer.

EDUCATION

Bachelor of Science in Software Engineering (B.S. SE) 2020 - present

Government College University, Faisalabad — Ongoing
Currently pursuing a degree in Software Engineering, building a strong foundation in programming, software design, and modern web development. Actively applying classroom knowledge through real-world React and Next.js projects to strengthen practical and theoretical skills.
Intermediate in Computer Science (ICS)

Concordia College, Sahiwal — Graduated: 2022
Achieved an A+ grade, with a focus on Computer Science, Mathematics, and Physics. This period helped develop analytical thinking and introduced core programming and logical problem-solving skills that inspired my journey into software development.
Matriculation (Science Group)

Government Comprehensive High School, Sahiwal — Graduated: 2020
Completed secondary education with an A+ grade, demonstrating strong academic performance and interest in technology and computer systems from an early stage.
